March 4, 2015

To our Valued Customers in the Mentmore Subdivision

The City of Gallup has increased funding and approved additional work for completing an emergency sewer line upgrade on Chee Dodge Blvd. Excavation during the original emergency project and more recent underground CCTV investigation revealed the need to increase the scope of the original emergency work to provide additional sewer line replacement on Chee Dodge from Low Mountain to Jeff King Street.

Total Construction Services out of Albuquerque has started moving equipment and materials on site and will begin work on this expanded project today, Wednesday, March 4, 2015. The project is expected to take 75 calendar days for completion. Traffic will be re-routed as needed and every effort will be taken to keep access to driveways.

We apologize for any inconvenience, but this is work that needs to be done for the safety and betterment of the Mentmore community by providing reliable sewer services.

We appreciate your patience and understanding. If you have any questions or comments concerning this project you may call the City of Gallup - Utility and Engineering Administration office at (505) 863-1289.

Thank you,

Ernest Thompson
Superintendent of Water/Wastewater
